

Environmental Policy Statement

TO OUR ESTEEMED PARTNERS, STAKEHOLDERS, AND GLOBAL COMMUNITY,

At HDTech Solutions Inc., we understand the profound impact that businesses have on the environment. It is with this understanding and responsibility that we are steadfastly committed to embracing sustainable practices that prioritize the health of our planet. Rooted in the principles outlined in the RBA Code, this policy serves as our unyielding promise to the environment, now and for future generations.

1. ENVIRONMENTAL PERMITS & REPORTING:

We are committed to obtaining and maintaining all necessary environmental permits, approvals, and registrations, ensuring that we always operate within the confines of the law. We pledge to transparently monitor and report on our environmental performance.

2. POLLUTION PREVENTION AND RESOURCE REDUCTION:

Pollution prevention and resource conservation are at the heart of our operations. We actively seek methods to minimize waste and use resources more efficiently, setting periodic goals to drive continual improvement.

3. HAZARDOUS SUBSTANCES:

HDTech Solutions Inc. takes all necessary precautions to identify, manage, and safely handle hazardous substances. We promise to maintain robust systems to ensure the safety of our environment, employees, and stakeholders.

4. SOLID WASTE:

We are resolute in our commitment to minimize solid waste. Through effective waste management and recycling processes, we aim to significantly reduce the waste footprint of our operations.

5. AIR EMISSIONS:

Understanding the implications of air emissions, we employ best practices and modern technologies to monitor, control, and minimize airborne contaminants, thus ensuring cleaner air for our communities.

6. MATERIALS RESTRICTIONS:

Adhering to global standards, we meticulously monitor and restrict the use of materials that may have adverse environmental impacts, ensuring that our products and services are in harmony with global environmental standards.

7. WATER MANAGEMENT:

Water, the lifeblood of our planet, is invaluable. We are committed to managing and conserving water resources diligently, implementing systems that reduce consumption and safeguard against contamination.

8. ENERGY CONSUMPTION AND GREENHOUSE GAS EMISSIONS:

Our pledge extends to the efficient use of energy and the proactive reduction of greenhouse gas emissions. We continuously seek innovative solutions and practices to minimize our carbon footprint, helping combat global climate change.

In endorsing this policy, the senior management of HDTech Solutions Inc. not only acknowledges our responsibilities but also sets forth a clear path of environmental stewardship. We call upon our employees, partners, and stakeholders to join us in this journey towards a greener and more sustainable future.
